

<b>COMMUNITY SAFETY AND ENVIRONMENT SCRUTINY PANEL</b>	<b>DATE</b> 27 April 2021	<b>ITEM NO</b> 5
<b>TITLE</b> Update on Integrated Enforcement 2020/21	<b>WARD (S)</b> All	
<b>CHIEF OFFICER</b> Director for Housing & Safer Communities	<b>CABINET MEMBER</b> Community Safety & Enforcement	
<b>DECISION CLASSIFICATION</b> Information only	<b>IS THE FINAL DECISION ON THE RECOMMENDATIONS IN THIS REPORT TO BE MADE AT THIS MEETING?</b> N/A	

1. **Decision required**

This report makes the following recommendations to the decision-maker:

- 1.1 To note the update provided by this report in respect to the Royal Borough of Greenwich's (RBG) Integrated Enforcement approach.

2. **Links to the Royal Greenwich high level objectives**

- 2.1 This report primarily relates to the Council's agreed high-level objectives as follows:
- A Safer Greenwich
  - A Cleaner, Greener Greenwich

3. **Purpose of Report and Executive Summary**

- 3.1 This report has been produced to update the Community Safety & Environment Scrutiny Panel on RBG's ongoing and ambitious Integrated Enforcement (IE) approach.
- 3.2 The report will provide information regarding the evolution of the initiative during 2020/21, its impact so far and plans going forward. As well as the overarching initiative, this report will also outline some of the supporting changes which have been introduced or being progressed to deliver a more effective and integrated enforcement approach.
- 3.3 The Panel are asked to note the contents of the report in support of their scrutiny of Integrated Enforcement and the Community Safety portfolio.

## 4. Introduction and Background

- 4.1 As a useful reminder Integrated Enforcement (IE) is the Council's ambition to strengthen joint working across enforcement teams. The IE strap line of '*collaboration, coordination and communication*' really encapsulates the approach being driven internally and with wider partners to make Greenwich a safer, but also cleaner and healthier, place to live, work or visit. The development and delivery of IE is being led by Housing & Safer Communities
- 4.2 IE was first conceptualised at the end of 2018 in support of the Council's new corporate plan. This plan identified the need for greater collaboration across services, and with others, to deliver our aims & objectives against the backdrop of growing complexity, demand, and financial constraint.
- 4.3 As documented, and was highly commended, in a previous annual update to the Community Safety & Environment Scrutiny Panel, there was significant amount of work undertaken to introduce and drive IE forward during 2019/20. Although the entire of 2020/21 has seen the Council and supporting partners having to prioritise and adapt to the challenges created by the COVID19 pandemic, IE has continued to deliver and evolve because of the collective commitment and drive of practitioners, chief officers and the lead responsible member.
- 4.4 Again as a reminder, IE is continued to be delivered via two elements:
- A) 'Love Your Place' which deals with **front-facing service delivery** and the tasking, coordination, and governance (operational, tactical and strategy)  
AND
- B) **Supporting business change** to drive the underpinning improvements which help enforcement teams and partners to deliver better outputs and outcomes more effectively and efficiently. Many of these improvements are overseen and driven by a dedicated cross-directorate/agency IE Programme Board.

## 5. Annual Update

This has been the most extraordinary year. The pandemic has sadly impacted on many individual service priorities and heightened the need for seamless integrated enforcement across the council in order to achieve the overarching goal of keeping people and places safe in the Royal Borough during an international public health crisis. Services came together under the banner of integrated enforcement to deliver an impressive number of COVID

related interventions whilst maintaining an excellent standard of core business related activities.

## 5.1 Key Activity & Impacts 2020/21

The following tables outline some of the key front facing activity delivered and the impacts achieved during 2020/21 against the agreed IE thematic, geographical, and seasonal priorities as shown below.

As can be seen the thematic priorities are much broader and ambitious than during the inaugural year of IE (2019/20) with a wider number of priority areas introduced to help focus collaboratively activity and additionality wherever possible or relevant to do as common public concerns and complaints.

THEMATIC PRIORITY	PRIORITY AREAS
<b>Keeping Our Streets Safe and Clean</b>	Fly-tipping Fly-posting Abandoned Vehicles Street Vehicle Sales
<b>Creating Safer Public Places</b> <i>(links to SYV&amp;CSE)</i>	Street Drinking & Urination Aggressive & Exploitative Begging Nuisance Buskers Crime & ASB within & outside of licenced premises
<b>Addressing Problematic Premises</b>	HMO Compliance & Enforcement Anti-Social or Exploitative Brothels Unauthorised Development linked to crime & ASB
<b>Reducing the Harm Caused by Drugs Misuse</b> <i>(links to SYV&amp;CSE)</i>	Public Possession Properties Involved in the Production or Supply Cuckoo-ed Addresses Drugs Detritus
<b>Tackling Nuisance Vehicles</b>	Parking Infringements Unlicensed Ice Cream Vans Off Road Misuse Anti-Idling
<b>Protecting Our Residents at Home</b>	Doorstep Scams Rogue Traders Residential Burglary

**GEOGRAPHICAL PRIORITIES**

- Woolwich Town Centre
- Eltham Town Centre
- Greenwich Town Centre
- Plumstead Town Centre

**SEASONAL PRIORITIES**

**SPRING**

- Safety in Parks & Open Spaces

**SUMMER**

- Street Drinking
- Op Double Scoop – Illegal Ice Cream Sales (+ nuisance busking)

**AUTUMN**

- Halloween/Bonfire related ASB (including fireworks)
- Residential Burglary

**WINTER**

- Street Population Outreach & Intervention
- Licensing Enforcement

**5.1.1 Thematic Priorities**

<b>PRIORITY</b>	<b>KEY ACTIVITY</b>	<b>KEY IMPACTS</b>
Keeping Our Streets Safe and Clean	Implementation of ANPR and AI technology in Enviro Crime mobile CCTV.	Improved vehicle detection and identification resulting in increased numbers of prosecutions.
Creating Safer Public Spaces	Boroughwide consultation and Introduction of new Public Space Protection Order conditions.  Greater use of Community Protection Warnings and Community Protection Notices	Ability for MPS and the Safer Spaces to enforce against a variety of concerns identified in the public consultation such as car park misuse, amplified noise nuisance and group ASB.  Since April 1st 2020, there have been 72 CPW's issued and 38 CPN's. Breaches of the CPN's have resulted in individuals being arrested and taken to court for prosecution decisions.
Addressing Problematic Premises	Work between Plumstead SNT, Safer Spaces and Safer Communities targeting sex	5 confirmed brothels closed on Plumstead High Street and a problem-solving process underway to reduce

	work in Plumstead High Street.	anti-social sex work and drug misuse at St Nicholas' Church. Such activity looks to support our efforts in regard to potential modern slavery and violence against women & girls.
Reducing the Harm Caused by Drugs Misuse	Patrols led by data that the caretaking team now provide – targeting areas with high levels of drug detritus.	Joint action by IE Policing Team , Safer Spaces and the Tenancy Enforcement Patrol Team has resulted in reductions in drug misuse within key blocks.
Tackling Nuisance Vehicles	An IE operation to remove vehicles on Thistlebrook connected to rough sleeping and drug dealing.	Rough sleepers engaged with by Street Pop Outreach Worker and residents now benefitting from a reduction in drug dealing and loitering from non-residents on their site.
Protecting Our Residents at Home	In the past twelve months Trading Standards have issued over 46 scam alerts to local community groups, residents, and businesses, as well as obtaining external funding for 'truecall' devices to screen potential scam victims' telephone calls. Significant contacts have been retained with local bank branches, including in-person visits to thirteen branches in conjunction with a dedicated Operation Mercury police team.	The close connections built with financial businesses have fed the success of the Trading Standards rapid response service, where bank branches report potential doorstep crime victims. In the past month this has resulted in arrests of suspects, a £10,000 payment being stopped and fraudulently monies returned to residents. A series of significant cases are awaiting hearings in the Crown Court, including a money laundering case where the victim was subject to £60,900 detriment. In further cases, £48250 has been returned to a victim as a result of a financial investigation, and the

		transfer of a residence worth £400,000 has been prevented. The total figure of detriment to rogue trader victims which has been prevented over the past twelve months is financially significant at £652,452. All victims are safeguarded to protect their wellbeing and prevent them being subject to further rogue trader activities. We are in the process of pursuing potential money laundering offences under the Proceeds of Crime Act (POCA) against a series of local traders and businesses.
--	--	--

### 5.1.2 Geographic Priorities

<b>PRIORITY</b>	<b>KEY ACTIVITY</b>	<b>KEY IMPACTS</b>
Woolwich Town Centre	Op Fortress in Calderwood Car Park with CCTV installed and patrols from MPS and CSET led by intel from the Digital Evidence Team (CCTV).	Excellent work between the Digital Evidence Team and the IE Policing Team has resulted in key arrests for drug possession/possession with intent to supply, and regular patrols and linking into the Street Pop Outreach Worker have reduced problematic behaviour linked to rough sleeping.
Eltham Town Centre	Problem Solving process undertaken to eliminate anti-social use of public conveniences.	Following the installation of blue lighting into Well Hall Pleasance toilets there has been a complete reduction in intravenous drug use in the toilets and positive comments from park users regarding the improvements.
Greenwich Town Centre	Anti-Social Busking in Greenwich Town Centre	Anti-Social busking within Greenwich Town Centre

		<p>has resulted in a high number of complaints over the years. Due to this, the Safer Spaces team have begun to tackle the issue by issuing Community Protection Advisory/Warnings and Notices to those that have been persistent in their behaviour and they have failed to address this by having verbal warnings. Since July 2020, 6 Community Protection Advisory Notices and 2 Community Protection Warnings have been issued. The new Public Spaces Protection Order in relation to using amplification in an antisocial manner will also assist in dealing with this, and we will hopefully see a further reduction in complaints from residents.</p> <p>Street Trading / Town Centre Management colleagues within in DRES are also currently progressing introduction of a voluntary code of conduct for busking as well as a potential licensing regime to help further regulate this form of street entertainment.</p>
<p>Plumstead Town Centre</p>	<p>Plumstead Gardens Problem Solving Process– Drug Misuse, Youth related ASB &amp; Gang Activity</p> <p>Partnership Working with Safer Spaces, Parks &amp; Open</p>	<p>Successful Arrests of individuals involved in drug dealing.</p> <p>Reduction in drug litter and weapons hidden on site due to regular Weapons Sweeps</p>

	Spaces, Integrated Enforcement Police Team and Safer Neighbourhood Team	with Safer Spaces and Met Police Planned development works on site to improve landscape and encourage positive usage of the site
--	---	---

### 5.1.3 Seasonal Priorities

<b>PRIORITY</b>	<b>KEY ACTIVITY</b>	<b>KEY IMPACTS</b>
Safety in Parks and Open Spaces	Intel-led patrols as part of Op Boundary targeting congregation, organised sport and persistent littering.	Reduced spread of COVID-19 and reduction in littering/waste.
Street Drinking	Targeted Operation - Op Fortune - To tackle Street Drinking and Anti-Social Behaviour in the Town Centre  From March 2020/21 Community Safety Enforcement Officers & Local Authority Support Officers seized 1695 bottles/cans of alcohol and issued 509 PSPO FPNS.	23 Community Protection Warnings & 12 Community Protection notices were issued to the town centres more prolific offenders for Street Drinking resulting in 127 subsequent Breaches and 11 Arrests.
Op Double Scoop	Summer priority action days took place during July targeting itinerant ice cream traders in Greenwich town centre.	2 Community Protection Warnings and 1 Community Protection Notice was issued to itinerant ice cream traders that were persistent in trading within prohibited streets. This resulted in an almost complete reduction of illegal itinerant ice cream traders in the area.
Halloween/ Bonfire	Multi-agency operation planned, involving RBG teams (Safer Spaces, Community Protection Team, Tenancy, Street Cleansing) and key IE partners (e.g., London Fire Brigade, MPS).	Fireworks sweeps took place prior to bonfire night which took away some of the issues of fireworks being misused and thrown at officers and the public. Fireworks were found hidden in various places in

		Woolwich Town Centre. Youth disorder limited to General Gordon Square.
Residential Burglary	Data-led patrols of key hotspots – 3 from last year and 3 identified as emerging hotspots.	Large reduction in domestic burglary, although in part as a result of COVID restrictions with more people being indoors/at home.
Street Pop Outreach & Intervention	Engaging with Street Pop Clients during the Covid19 Pandemic	105 Street Pop Clients have been engaged with. 45 individuals have been reengaged with Drug & Alcohol treatment. 50 individuals have been successfully placed into accommodation. 1 individual has been referred via the National Referral Mechanism for Modern Slavery.
Licensing Enforcement	Due to COVID there was very little seasonal activity as licensed venues were again told to close.	There were sporadic issues with patrons gathering outside of licensed premises when they were permitted to serve alcoholic 'take- aways'. As this was outside of the licensed footprint of the venues in question, Safer Spaces engaged with individuals to redirect.

## 5.2 Focus on Safer Spaces

- Overview of Service & Structure: The Safer Spaces service launched in February 2020. The aim is to deliver Safer Public Spaces within the Royal Borough and is at the heart of the Integrated Enforcement approach. The operating model consists of Digital Evidence (CCTV) and Community Safety Enforcement (Enhanced Problem Solving & Enforcement Officers), supported by the Metropolitan Police Service (MPS) Integrated Enforcement Police Team (IEPT). Safer Spaces tackle a broad range of community safety issues, focusing on long-term problem solving and delivering interventions to offenders/victims in a trauma-informed manner (e.g., personalized interventions). The service delivers a range of innovative initiatives and

projects to improve safety in public spaces. 2020/21 also saw the successful pilot of integrated third-party enforcement support by Local Authority Support (LAS).

- **3<sup>rd</sup> Party Enforcement:** Launched in March 2020, this is an 18-month proof of concept working with LA Support Ltd to enhance enforcement of enviro-crime, ASB and the PSPO. It offers greater flexibility to deploy 'in house' enforcement staff on wider, more complex, public space issues and an integrated approach to increase vigilance and generation of community intelligence. There is an opportunity for future, substantive contract, or expansion in support of other RGB services.
- Since launching the pilot, LAS working in conjunction with the Community Safety Enforcement Team have issued 7,528 Fixed Penalty Notices for low level enviro-crime and breaches of PSPO legislation. This is a 520% increase on the former warden's service. Since the launch of the service there have been 365 individuals referred for prosecution for non-payment of fixed penalty notice. This is a significant increase on the previous legal enforcement capability due to improvements made to the back-office system and working processes with RBG legal services.
- **CCTV Modernisation:** The transformation project involved an estimated contract value of around £3.7m over a maximum of nine years. The main aim was to improve camera resolution and evidential quality and enable the future use of data analytics to identify and alert CCTV staff to threats (e.g., unusual movement, unusual crowd detection, etc). It has provided a greater opportunity to connect additional mobile CCTV cameras to support tasking under Integrated Enforcement, track issued GPS enabled radios and also live stream body worn video footage should an emergency occur. Technology assisted 'forensic searching' will reduce officer time searching footage for incidents or persons/vehicles of interest and remote viewing/sharing of CCTV will enable better incident management and reduce pressure on partner agencies in terms of travel to/from the CCTV control room.
- **Street Pop Project:** This MOPAC/MHCLG funded project supports the most complex, chaotic and vulnerable of our street population, who require intensive support to access the services to recover from homelessness and change their behaviour around rough sleeping, begging, and street drinking/drug use and associated ASB. This year, one of the key successes has been the COVID Vaccination Clinic for current and previous rough sleepers where 22 individuals were vaccinated against COVID19 and were offered chest x-rays, a key tool for detection of tuberculosis in homeless populations, by an NHS x-ray van which was also organised.

### 5.3 IE Policing Team

- **Overview and evolution (2 officers to team of officers):** Greenwich Neighbourhoods Policing strand, recognised mutual shared priorities with the Royal Borough of Greenwich (RBG) in reducing crime and ASB. They also recognised that being part of the Integrated Enforcement (IE) Strategy promotes wider communication, collaboration and coordination between different Police strands and RBG departments. Seeing IE in action within RBG increased senior level MPS confidence that we could support each other and that there were good mechanisms with clear pathways to set priorities and tasking's. These included the weekly IE dial in, monthly IE LYP meeting and the Police TTCG. With two funded Officers already assigned to the IE model and the promise of new recruits being rotated through neighbourhoods the MPS saw an opportunity to launch two enhanced IE Policing teams (IEPT) under one Sergeant whilst utilising the strong relations that the funded officers already had with RBG. Teams at present – 1 Sergeant – Team 1 / 2 each have an RBG funded Co-ordinator, 3 Substantives and 3 Probationers. They work on two leave lines to ensure the best coverage and capability across the RBG. Supervision, expectations and performance on the team is high with probationers requesting to stay and substantives wanting to join.
- **Key performance outputs/outcomes:** Since the enhanced team started 8 months ago in August 2020, there have been 106 arrests with an incredible 85% charge rate which reflects the professionalism of arrest and investigation as well as the enhanced intelligence sharing between IE partners. The IEPT have completed 481 stop searches with a 38% positive outcome rate (again a corporate measure of 20%) which is the highest of any team on the SE BCU. This would point to the teams use of stop search being more aligned intelligently to areas and rates of offending but also more searches being more justifiable in terms of their grounds. Although not specifically measured at a team level, the SE BCU do of course recognise ongoing concerns around disproportionality of stop-search, even if certain demographic groups are far less likely to be searched in Greenwich in comparison to other London boroughs. An update on knife crime, including stop-search will be heard at scrutiny later in the year.
- The IEPT have also researched and completed several warrants in the last 8 months all of which have taken place in joint tasking areas and all of which have led to convictions and assistance from RBG under the 'no home for harm' pledge. As well as taking part in joint operations with RBG for Op Boundary, Op Cyclone and with the Environmental Health teams; the IEPT also linked in with the Safer Neighbourhood Teams to assist in

their hot spot areas to help resource urgent warrants that also feed in to RBG issues. The IEPT and IE strategy has really proven itself during COVID as the close links and governance structure has made joint COVID related work much easier to achieve. The IEPT have issued over 50 COVID FPNs and worked closely with the specifically employed COVID Stewards, the CSET and the RBG Parks & Open spaces team to make RBG as safe as possible during this testing time.

## **6.0 Moving IE Forward into 2021/22 and links to the MTFS**

- 6.1 In line with the Council's Medium Term Financial Strategy (MTFS), opportunities are being considered to further align enforcement related services, both strategically (in terms of greater collaboration and consistency of approach) but also structurally where there would be benefit. Any proposals agreed by relevant officers and members will be implemented throughout 2021/22, predominantly for efficiency gain rather than cost reduction. It is generally accepted enforcement services are already lean and facing growing and more complex demand. Opportunities to increase performance and productivity, including better use of technology and innovation, are however areas that officers and members are keen to maximise.
- 6.2 In addition to the front facing delivery, IE will continue to see a range of business change and continuous improvement initiatives being progressed to assist enforcement staff and partners, and for the benefit of local communities. This has turned into an even more ambitious programme of work due to the various projects already in train or planned across enforcement teams. The main projects being:
- 3<sup>rd</sup> Party Enforcement Support
  - CCTV Modernisation (including Digital Evidence & Enforcement)
  - Radio and Body Worn Video Modernisation (including new Town Watch offer for businesses)
  - IE Intelligence Capability
  - Creation of a new Community Protection Team (ASB/Noise/Nuisance)
  - ECINS Collaboration and Case Management Pilot
  - ICT Discovery (as part of the Housing & Safer Communities Digital Work)
- 6.3 The above projects, in addition to monitoring of associated risks, inter-dependencies, etc, are now being overseen by a reinvigorated IE Programme Board chaired by the Assistant Director – Community Safety & Environmental Health and as the RBG Lead for Integrated Enforcement. Updates are fed into the corporate Continuous Improvement (CI) machinery via the Council's CI

Team. Updates on these areas of work will feature in the next annual IE update due currently for February 2022.

## 7.0 IE Case Studies

- **Op Boundary:** Safer Spaces coordinated the enforcement response to the COVID-19 pandemic in the Royal Borough between March 2020 and April 2021. The data and intel-led approach was cemented with a weekly product produced to ensure that all areas involved (Safer Spaces, Tenancy, Parks & Open Spaces, Environmental Health, Street Trading and Business Engagement) were aware of the current picture and an integrated approach was maintained. COVID rate data from Public Health was mapped on a weekly basis to inform taskings to areas with high rates. This was particularly important with the tasking for the Tenancy Enforcement Patrol team which were seconded to Safer Spaces. This team were tasked to ensure that social distancing and other measures were in place in RBG estates, and also focussed on ASB in both these estates and those with high levels of ASB reported across the Royal Borough. Intel was gathered from various sources, from social media to our COVID Stewards, and discussed at daily grip calls. Premises and areas of interest were allocated to relevant teams with operational duties for these devised in line with the weekly plan. As part of Op Boundary, the Royal Borough's Environmental Health and Trading Standards teams have served 11 prohibition notices to local businesses caught breaking COVID-19 restrictions since January.

*\*socially distanced team briefings*

*\*social distancing banner and Safer Spaces officer.*

- **Op Cyclone:** In December 2020 Safer Spaces led a multi-agency day of action in Parry Place, SE18 following concerns from businesses and residents regarding ASB, drug dealing/use and groups of males gathering on the street and intimidating people coming to the area. Partner agencies flooded the area and Police executed 2 search warrants and made a number of arrests relating to the supply of drugs. Trading Standards seized 15000 illicit cigarettes, 400 litres of unauthorised alcohol and banned pesticide sprays. Several businesses were served with fines for unauthorised waste disposal and transfer. The local Police team has had hugely positive feedback from local store owners claiming an increase in customer footfall and reduction in ASB.

*\*illicit alcohol seized during Op Cyclone.*

*\*illicit drugs seized during Op Cyclone.*

- **Op Stop It – Horn Link Way:** On Thursday 18th Feb 2021 Royal Greenwich Enviro-Crime Enforcement officers, Safer Spaces Community Safety Enforcement Officers and the Metropolitan Police worked in partnership to reduce the effects on the community of untaxed vehicles at the semi residential location in Horn Link Way. 15 untaxed vehicles were removed in an intensive joint operation between Royal Greenwich, Integrated Enforcement and the Metropolitan Police. This also included a vehicle suspected of fly-tipping 2 Tons of waste in the Charlton area in June 2020. Vehicles that were in such condition that they appeared to be abandoned, or

untaxed were inspected and removed from the public highway and the Footpath. The day of action formed part of RBG's rolling 'Operation Stop It!' which aims to remove nuisance vehicles from the roads in Greenwich; this includes abandoned vehicles, untaxed vehicles and vehicles suspected of being used for fly-tipping. Metropolitan Police Officers were assigned under Operation Stop It.

*\*untaxed/abandoned vehicles being removed under Op Stopit.*

- **Rogue Waste Collector:** A joint operation between Royal Greenwich, Integrated Enforcement and the Metropolitan Police, officers from the Enviro-Crime Enforcement Team saw an investigation into a rogue waste collector believed responsible for dumping multiple loads of waste on a public road. On 12th August 2020, at 6am, under Operation Stop It, integrated

ITEM NO: 5

enforcement colleagues and 5 Police Officers entered an address in Plumstead. One male was arrested on the suspicion of 4 counts of fly tipping under s.33 Environmental Protection Act, one item of clothing seized from inside of the premises and one vehicle seized. The suspect was taken to Bexley Police station, he was fingerprinted and processed. The suspect was interviewed by Enviro Crime officers at Bexley Police Station and consideration was given whether the suspect should be remanded. This is a first for the enviro-crime enforcement team, for a suspect to be arrested without a warrant on grounds under s.24 Police and Criminal Evidence Act 1984, to allow the prompt and effective investigation of the offence/s or of the conduct of the person in question.

*\*seized rogue waste collector's vehicle.*

## 8.0 Recognising Success

8.1 Individual officers, teams, and IE as a collective partnership approach, have all been subject to positive feedback and recognition over the last year. Two senior managers from RBG Safer Spaces recently received a BCU Commander recognition award in driving IE and their contribution in supporting the IE Policing Team to be one of the highest performing on the BCU. Both Safer Spaces (as a team) and IE (as a collaborative initiative) are also being nominated for national recognition too. These include the 2021 MJ award for 'Delivering Better Outcomes' (IE) and by the Leader himself, for the 2021 LGC award for 'Team of the Year' (Safer Spaces).

## 9.0 Cross-Cutting Issues and Implications

<b>Issue</b>	<b>Implications</b>	<b>Sign-off</b>
<b>Legal</b> including Human Rights Act	The role of the Overview and Scrutiny Committee is set out in Article 6 of the Council's Constitution. The purpose of this report is to provide the committee with an update on the Council's Integrated Enforcement approach. No formal decision will be taken. As such, there are no legal implications arising directly from the report	Azuka Onuorah Head of Legal Services 15 <sup>th</sup> April 2021
<b>Finance</b> and other resources	The Community Safety & Environment Scrutiny Panel is being asked to note the update provided by the above report in respect of the Royal Borough's Integrated Enforcement approach. There are no financial implications arising from the contents of this report.	Dave Lucas Business Change Accountant 12/04/21
