

Appendix 3 – EU Residents and Communities in the Royal Borough of Greenwich

In December 2018, the Office for National Statistics (ONS) estimated the Royal Borough of Greenwich’s population as follows:

Total	British	Non-British (Total)	EU/EEA Nationals	Other Non-British
285,000	221,000	62,000	32,000	29,000

The ONS estimate provides only limited information about individual nationalities, although this information is available through the 2011 census, which provides information on nationality to Ward level. While the size of communities is likely to have changed since 2011, this data, which is presented on the charts below, provides an indication of the nationalities present in the Royal Borough of Greenwich, as well as the relative sizes of these communities.

EU/EEA Population (2011 Census)

EU/EEA Population by Nationality and Ward (2011) Census
